

FOR IMMEDIATE RELEASE

ETI Selects Ron Baker as CFO and COO

Industry Veteran to Direct Strategy and Growth for Leader in Data Integration Management

AUSTIN, Texas – August 15, 2005 - Evolutionary Technologies International (ETI), a leading provider of enterprise data integration solutions, today announced the hiring of Ronald E. Baker as chief financial officer and chief operations officer.

Baker will be responsible for the financial stewardship, strategic planning, and on-going operations including sales, marketing and overall company performance. He joined the company in 2005 as a corporate finance consultant and led the company's buyout of its original venture investors.

Baker has more than 20 years of professional experience in corporate development and strategic finance. He previously served as a director of the Bank Street Group, a full-service investment banking firm and was formerly executive vice president and CFO of LiveWorld Inc., where he engineered the successful turnaround of the publicly traded company. Baker was also a founder of OnAir Streaming Networks, later sold to Loudeye Technologies.

"I am excited to join the ETI leadership team and am enthusiastic about the company's future," said Ron Baker. "The market for data integration is experiencing explosive growth due to increased regulatory requirements, homeland security concerns and business consolidation. ETI's best-of-breed software provides robust, scalable and easy-to-use data integration capabilities without requiring the customer to buy and install additional software for their production environment."

"ETI has been successful because of the loyalty of our board and the quality of our people and technology," said Kay Hammer, president and CEO, ETI. "Being able to attract someone of Ron's caliber is evidence that all of our hard work has been worthwhile. ETI is poised to grow, and Ron is the guy who will make it happen."

About ETI

Evolutionary Technologies International (ETI) is a leading supplier of enterprise data integration solutions for government IT organizations and Global 1000 companies, providing software and services that automate the seamless exchange of data between incompatible systems. Organizations around the world rely on ETI to implement applications ranging from SOA, CRM, ERP, EAI, compliance reporting, and data warehousing. Founded in 1991, ETI is based in Austin, Texas with additional offices in the United States, Europe and Australia. For more information, please visit www.eti.com.
